GENE STRATTON PORTER'S LAST NOVEL

The Magic Garden'

*The Picture Demanded by
20,000,000
Enthusiastic Readers*

Remember "The Keeper of the Books," "Laddie"—and now the supreme effort of her career! The Greatest Story Ever Told—but told in a new way—with all GENE STRATTON PORTER'S marvelous wealth of romance and idealism brought to a focus in this her last and incomparably finest novel—THE MAGIC GARDEN!

Coming Next Wed.—WINGS OF THE STORM."

COMING NEXT FRI. & SAT.

"The Callahans and the Murphys"

Good Progress With Threshing

Although over a day was lost during the first week of threshing owing to high winds, rapid progress was made in reducing the large fields of stocks waiting for the machines. Delivery to the elevators was so rapid that by Wednesday night difficulty was being experienced in finding room for all but those who had bins reserved and building of bins on the farms has been pushed as fast as material could be secured, there being a shortage of the lumber generally used for this purpose. The prevalence of windy days, while only stopping the machines for short periods, have made the work of the men more than usually difficult and numerous changes in the personnel of the threshing gangs has resulted in many instances. Most of the gangs have been able to retain a full complement of men most of the time, although a few have been running short-handed at times. There is a wide divergence in the grades being received, No. 2 being the most prominent grade, while No. 2 is not so common. Low spots in fields are contributing considerable low grade grain, frost being one of the principal causes. It is considered it will take the best part of another month to complete the threshing even if good weather is continuous.

Delay Opening Of Ag. Schools

Owing to the delay in threshing in many districts in the province, it has been decided to postpone the opening of a number of the provincial agricultural schools in order to allow farm boys who are busy with fall work to attend from the beginning of the term. Instead of commencing work on October 2th as previously intended the Raymond and Vermilion schools of agriculture will open on November 9th, and the Olds school of agriculture will open on November 15th with classes for the first and second years of the regular course. The time lost at the opening of the term will be made up by shortening the Christmas vacation and extending the course for a few days in the spring. Students in the third year of the course at the Olds school commenced work on Wednesday, October 19th.

Proper Handling Necessary For Pelts

There are thousands of trappers in Canada and all of them are engaged at one time or another during the winter season in taking the pelts of wild fur-bearers. There is hardly a farm, village or a town in Canada that has not its trapper or fur-trader. Millions of dollars are distributed each year among these persons as a result of the disposal of Canada's annual raw fur catch. Last year it had a value of \$15,072,244.

A very considerable increase in the yearly value would be made possible were proper methods of pelt handling more widely known.

Too many trappers think that once they have taken a skin nothing else remains to be done. Amateur and farmer trappers, which form more than half of the trapping fraternity, are the chief losers through this lack of knowledge in the handling of raw pelts, as poorly prepared pelts bring much lower prices than those which have been properly prepared. Leading fur authorities have stressed the fact that in many cases up to one-half of the pelts coming to the raw fur markets fall into the unprofitable class and that every year there is a tremendous loss in pelt values that could be prevented. The loss, how-

Local and General

Two foggy nights in succession on Tuesday and Wednesday, together with the first frost, made enough work for the threshers who kept their outfit going.

Mrs. A. E. Morrison wishes to thank the ladies of Champion for the kindnes shown to her children and to her baby during her absence in the hospital.

J. O. Reid, who has been in Champion for some days looking after interests here, left for Airdrie on Saturday evening, much pleased with the returns received from his land here.

A. H. Peatman continues to handle the Calgary Herald, the Lethbridge Herald and the Albertan, in addition to all classes of magazines. See him before placing your subscriptions this fall.

That the council should find some difficulty in apportioning the number of street lights at their disposal in a manner to please everybody was to be anticipated. As it is, it is quite possible some improvement could be made in this distribution. As a first attempt, however, very reasonable success was achieved, especially when the size of the territory involved by the scattered locations is considered.

Big Yields of Wheat General in District

Remarkable yields of wheat continue to be reported from every quarter of the district. While many of these are not phenomenal, it is a noticeable feature that practically the whole crop is yielding from 30 to 50 bushels per acre, which includes crop produced on stubble. Such a record will always be very hard to beat, and it will be very doubtful if it will be equalled for many years.

Want Beef Graded In Future

Proposals to grade beef for market, as has been done in the case of eggs, butter, cheese and other products, are being considered by a commission appointed by the Dominion Government. This commission which included R. S. Hamer of the Dominion Livestock Branch, Ottawa; J. H. Evans, Deputy Minister of Agriculture for Manitoba; F. M. Baker, representing the packing interests; R. A. Wright, President of the Western Canada Livestock Union; and L. P. McQuat of Ottawa, have been meeting in Calgary during the past week and hearing evidence from producers, retailers and consumers as to the probable effect of a system of grading on the marketing of Alberta beef.

Still Trying For Ontario Market

Strong support in Alberta's move to sell coal from this province on the Ontario market was promised by Hon. Howard Ferguson, Premier of Ontario, at a banquet tendered him by the Alberta Government and the Edmonton Board of Trade in Edmonton, on Saturday last. Premier Ferguson, who was welcomed by Hon. George Houlday, urged the grant of a subsidy by the Dominion government to overcome the difficulty of high transportation charges on coal to encourage inter-provincial trade, and suggested the same procedure to assist in moving grain, beef, fish and other western products to the markets of Eastern Canada.

ever, is not confined to the careless trappers, but affects the whole fur industry and lowers the value of both the raw and finished product.

A WELL dressed man is always considered as a business asset, and the big men in business are quick to realize this fact. Dressing in Leishman Clothes can go through your business days secure in the knowledge that you could not be better or more correctly dressed. Leishman clothes are of continuous good appearance during the long lifetime of the garments because Leishman clothes keep their shape and color, and the cut and shape—long after ordinary clothing would be discarded.

If you want "quality" clothing, ask for Leishman Clothes. For years they have been known as "the best tailored garments for men."

Leishman Clothes

MEN! Make this resolution now. Come first to JOPLINGS when you want quality goods, real values and prices that cannot be beat.

JOPLINGS

Stop: Right: Here

SUBTRACT from your purse every element of uncertainty by making it HERE where you can always rely on obtaining the very newest in Men's Wear.

MULTIPLY the spending power of your money by making your purchases here where you may obtain the very best value possible.

DIVIDE the question into one of quality on one side and smart style on the other. You will find our goods equally attractive from either point of view.

Alberta Makes
Steady Progress

The colonization and development of Alberta have proceeded in a very satisfactory manner, although, as was the case in the neighbouring provinces, there were periods of depression. Notwithstanding disappointing results in some sections, notably the dry belt in the southern part, agriculture has made great progress, the area now under cultivation being more than twenty times that of the year 1900. While grain-growing is still the chief

industry there has been remarkable development in dairying, which now produces to the value of over \$20,000,000 annually. Stock-raising, Alberta's original source of revenue, has steadily increased, and the holdings of livestock are now more than three times those of twenty-five years ago. In the mountain and northern regions there are some good stands of timber, the raw material being estimated at 16,000,000,000 board feet and the wood suitable for other purposes at 270,000,000 cords. In the same regions water-power sites have been located which could provide electric energy of over 1,000,000 horse-power. The coal fields, which are believed to contain over one thousand billion tons of bituminous and lignite coal, are among the most extensive in the world. The supply of natural gas is almost unlimited. About 300,000 square miles are regarded as worth prospecting for petroleum, and wells have been tapped which produce crude oil and almost pure naphtha on a fairly large scale. Manufacturing is assuming great importance at Edmonton, Calgary, and Medicine Hat—Canadian Bank of Commerce Publicity Letter.

Notice to Advertisers
In future all copy for change of advertisements must be in this office by six o'clock on Wednesday night, or the previous week's advertisement will be run.

J. G. HARPER

Musical Director of
THE LETHBRIDGE CONSERVATORY OF MUSIC

Teacher of Violin and all other
Stringed, Plectrum and Band
Instruments.

Will be in Champion every
Wednesday.

C. McLean, Phone 26, or Mrs.
W. C. Hoskins, Phone 28.

J. FRED SCOTT LL. B.
Barrister, Solicitor, Notary Public,
of 213 Lancaster Building Calgary
will be in Champion every Saturday
afternoon, in old Municipal office.

SETTING A STANDARD

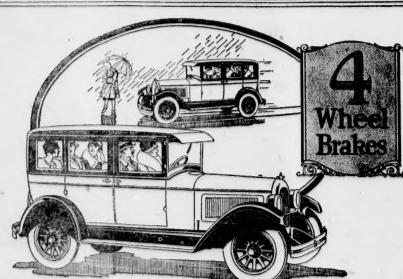

U.G.G. Elevators have set, throughout Western
Canada, a standard of service and treatment in
handling grain for farmers.

It pays to have a U.G.G. Elevator at your
station and it pays to make use of it.

Deliver your grain to:

UNITED GRAIN GROWERS LTD.

Elevator at Champion
COAL FLOUR FEED

The Safest and Most Powerful Car
of its Type ever created

A WHIPPET Combining the engined power and the road-holding of the WHIPPET with greater strength and a more powerful engine, the WHIPPET is the greatest live-wire.

Perfection in design, precision in a workmanship, strength and weight. Without question, the most powerful car of its type ever created.

A car that will cover 33 miles an hour in high gear, as effortlessly as a living thing, as effortlessly as a bird in flight.

A car giving the necessary safety and power, with a minimum of inches of breaking surface for pound of weight, than any car of the price.

OVERLAND
Whippet Six

B. N. Woodhull, Agt., Champion

in one dollar to the office of the Provincial Agriculture, Edmonton, and the threshers will also be supplied with a copy of the sections of The Noxious Weeds Act relating to threshers and with a form for the threshing returns which must be sent in by all threshing machine operators at the end of the season. It may be pointed out that these returns provide one of the most valuable sources of information available for the computation of Alberta's total crop yields in any season and a prompt return of this statement, accurately filled out, will greatly assist the officials in charge of this work.

There is Not Much Com-
fort in a Poor Heater!

Real economy is not found in buying a cheap article, but in the purchase of a good, substantial, serviceable article.

McCLARY'S FURNACETTE

*will cost you more money but you
get a Real Heater in return.*

A home evenly heated throughout with clean, healthy humidified air.

McClary's Furnacette gives you the same heating principles of a real furnace and saves you the high cost of installation.

It is constructed of heavy materials built to last and give service.

It is encased in a porcelain enamelled casing in Mahogany or Oak Finish, always clean and attractive as any piece of furniture.

Your service is backed by one of the largest manufacturers in Canada, and our ability to render you that service promptly.

The Conservative National Convention

The holding of a national convention by any great organization is always a matter of interest and of importance to people generally because of the effect it may have on the country as a whole. But when such a convention is called by a political party for the purpose of discussing policies, it is even more important, because it becomes one of first importance. It was natural, therefore, that the recent Conservative Convention in Winnipeg should command not only the interest of members and adherents of that particular party, but of the Canadian people as a whole.

In the convention, as in all the greater political meetings, was unique the character of the party, the fact that it was a gathering of men who were to come together in one convention. Conservatives, Liberals and other political groups have convened in national convention but the Conservatives had not done so prior to this year of Canada's Diamond Jubilee. It added one more nationally important observance of this memorable year in Canada's history.

It is well known that our political parties are not always in agreement as to what or whom members which are the subject of controversy between political parties. In this particular article there is no intention of detracting from that rule. But as a national event, the recent convention presented certain features and took certain actions which, instead of being controversial, are matters for general satisfaction.

In the first place, the convention adopted an unprecedented service to Canada in bringing together hundreds of the leading men and women of the nine provinces. The resultant exchange of views and opinions, the new knowledge gained of each other and each other's problems, the round table conferences in committee, can not fail to precede and affect future policy throughout the country.

To the West, the opening of the new department of the railway line to develop a port and trade in and out of that port is most gratifying. It definitely removes this great undertaking from the realm of partisan politics and places it where it belongs as one of the great national undertakings of the Province. It is a matter of great pride to all Canadians.

It is likewise gratifying to the West that the mantle of leadership should have fallen on the shoulders of a Western man, yet a man who has an intimate knowledge of the East. Whether one agrees with the political views of R. B. Bennett or not, few, if any, will question his ability or his love for and desire to serve his native land. His long experience in public life, as a member of the House of Commons, his training by law, his qualifications as a speaker, and the responsibilities which have been his as Minister of Justice and Minister of Finance in former Governments at Ottawa, should fit him for his new task of party leadership. In the hands of Hon. Mackenzie King and Hon. R. B. Bennett, the task is well in hand. British Parliamentary traditions and procedure should be well upheld.

Finally, the convention, and the settlement of the question of leadership, should have the effect of giving greater stability to political thought throughout the Dominion. It marks the end of a period of indecision and unrest in the ranks of the political groups, which is the natural result of a new Canada as yet untried in political leadership. In these days of despotism in the world, it is a positive duty of every Canadian to do all that is possible to help in the making of a better and more developing country like Canada urgently requires. In order to make progress, it is vital to the interests of the Dominion that one or two or all political groups know their own minds, definitely state their policies, and then decide in their actions. Unless those who direct and those who seek to direct the destinies of Canada are thoroughly sound and united in leadership and policy, it is futile to hope that they can make that contribution to the welfare and progress of Canada which is essential.

New Serum Successful

Glaxo Cure for Infantile Paralysis Has Been Perfected

Discovery of what is said to be the first effective medical treatment of infantile paralysis was announced at Indianapolis by Dr. L. D. Clegg, pharmaceutical chemist.

After ten years' research an anti-encephalocel serum has been developed from the horse as in the case of diphtheria and other serums.

The serum is being produced there in cooperation with Dr. Edward C. Rosenow, chief of experimental bacteriology of the Mayo Foundation, and already 16,000 units have been sent to poliomyelitis epidemic centers from coast to coast and even into Cuba.

First reports show it especially effective in Ohio and California.

Clinical reports indicate that results are obtained if the serum is used as soon as the case has been diagnosed, recovery without paralysis being reasonably certain in such cases. The serum has been found effective in treating paralysis

already begun, and in reducing hand-bodys already paralyzed.

The same Glaxo chemists who developed insulin for diabetes control worked on the new paralytic serum.

Germany Plans Air Train

Powerful Planes For Locomotives and Other Purposes

Aeronautical engineers in Germany are working on plans of an "air train" which is a possible means of travel in the future. The locomotive will be a power unit, and the train will be a series of a row of girders coupled to the locomotive and to each other, as the ears of a train, only with considerably greater spacing between the units.

The locomotive will be designed for some particular, too, and as the airframe of each town is approached the girders for that destination will be released from the rear of the string and settle gracefully down with its special pilot and its passengers.

Banff Winter Carnival

The 1936 Winter Carnival at Banff is to be held from February 10 to the next year, according to Dr. G. O. Ross, president of the Banff Winter Sports Association. Preparations are under way that give promise that this year's carnival will eclipse all previous events of the kind.

Many mothers can testify to the value of Dr. Fierce's Worm Extract, because the worm from experience has been useful to it.

London's tallest policeman recently committed suicide when refused because of ill health.

In Prairie country two letters could not be delivered last year owing to carelessness in addressing.

Retives Sore Throat—Minard's Liniment

An Unusual Expedition

Will Will Study Sea Life 500 Feet Below Surface

Plans for an expedition that has as its destination 500 feet below the surface of the Pacific Ocean were announced by George M. Williamson, one of the Williamson brothers who founded John Verne's "Twenty Thousand Leagues Under the Sea" thirteen years ago.

The expedition, commanded by Mr. Williamson, three men will be lowered to a depth of 500 feet below the surface of the ocean in a steel bell-clipped chamber, and from heavy glass portholes they will study deep-sea life.

A specially built schooner equipped with a party of scientists who will perform the researches will sail from San Francisco within sixty days of the first experiment is to be made, he said.

Use This Liquid

To Peel Off Corns

An amazing secret—gets in a few seconds and causes no pain. The corn shrivels up and loosens. Another application or two and the corn drops off. You can buy it now. It is the best corn peeler ever made. Get your bottle today. Send a specimen to Putman's.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monosodium Glyceride of Salicylic Acid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that the Bayer Cross is the trade mark of the Bayer Company, it will be stamped with their general trade mark, the "Bayer Cross,"

WARNING!
Beware of Counterfeits

There is only one genuine "ASPIRIN" tablet. If a tablet is offered as "ASPIRIN" and is stamped with the "Bayer Cross," it is a counterfeit. "ASPIRIN" at all! Don't take chances!

Accept only "Bayer" package

which contains proven directions. Hand "Bayer" label on the tablets. Also on the 25 and 100-bottle packages.

PAINTED FIRES

BY NELLIE L. MCCLUNG

COPYRIGHT, CANADA, 1925

CHAPTER X.—Continued.

"And now, girls, for a lovely surprise! There is a beautiful lady in the city who is going to have a tea in her own home for us. She thinks of us, living away up here on the hill, and she wants to do something for us. Tuesday afternoon she will open her lovely home, and kind ladies will come and bring gifts and money, all for the girls. I am sure we will be very happy."

"Good grief! We'll go!" It was Rose Lamb who spoke for the company, gathering up the feeling of the meeting in this one crisp exclamation. "I think that's the most's mouthed I heard!" "How come we could be tortured—all of us, I mean. You should never speak so!"

"Ain't she got room?" Rose persisted. "There's only twice nine of us—two to a room, Rose." Mrs. Wymuth commanded.

Rose started towards the hall, but stopped at the door to explain her position. "It's a swell way to hold a tea for us to no end, but I'll do it. Lamb's painted decorations in to the seat of action made her a sort of maid directory for the girls. At once every girl felt she had been slighted.

"Rose! At once!"

Rose answered leisurely up the stairs. Relieved of her disconcerting

presence, Mrs. Wymuth continued:

"And, as used in these cases, when tea is held in aid of a Home, there will be a lovely tea sent to us in a new footlong, Mrs. St. John is great-

ly interested in the work here, and asked so kindly about our methods. She pleaded for that dreadful Finn

method, but I told her she was quite different. She seemed quite distressed when I told that she had actually used it on her girls."

She seemed quite distressed when I told that she had actually used it on her girls.

"Permit me to assure you, Mrs. St. John, if she had actually used it on her girls, I would like to know, Yes, I know that I shall rebuke her in her class."

Mrs. St. John apologetically said, "I do not know if she has been doing that, but I have been doing it."

The winter passed not untroubled for Helen, who was troubled to account for Mrs. St. John's not coming to see her from her lesson.

Mr. Parker, who stood inside the drawing room, received her in an American beauty entwined dress. The roses on her face were very bright, and she was smiling.

Anyway, in a year she would be free.

Rose Lamb had told her that when she was eighteen they could not keep her any longer. She would be eighteen in a year, and she was worried.

She had been to the church, and the girls at the church, and took up again the happy life of the Club. In the meantime there were a lot of words to be learned and sentences to be learned.

At Christmas, Mr. Parker presented for all the girls—twenty-nine white pearls, tied with red satin ribbon, held down with palest stickers, each one containing a deep yellow jewel. Helen had a chain of fine diamonds with water like

water droplets, and she was delighted.

Then came the Christmas party.

Mr. Parker had a box of chocolates, neatly packed in tissue paper, and tied with a ribbon.

Then came the Christmas party.

ASK FOR LOWER DUTY ON ALL COTTON GOODS

OTAWA.—That the tariff of cotton yarn and cloth should be high enough to cover the wage bill of the industry but no higher, was the contention of R. J. Dechamne, acting for the Consumers League of Canada in presenting its case to the Senate here in application for the reduction of duty on all cotton goods.

Quoting from reports issued by the Dominion Bureau of Statistics, Mr. Dechamne said that the cost of the products for Canada as \$93,945,000 with wages and all amounting to \$16,000 per annum or approximately 16 per cent for the year 1921. The duties on the same commodities ranged from 20 per cent to 35 per cent, under the general cotton goods.

Alme Geoffrion, K.C., appearing for a group of manufacturers, in answering the brief of the consumers' league, argued that Mr. Dechamne's figures were not on facts. The average salaries, he said, in 1921, of the large mills in Canada, in 1921, amounted to 21.8 per cent, in 1926, to 23.8 per cent. Mr. Geoffrion also questioned the general productiveness of the mills.

J. R. K. Brisail, a member of the tariff department of the Canadian Manufacturers' Association, contended cotton entered into many products which were not shown under the tariff schedule. "One can see that any application for reduced duty would affect many other industries. He submitted that those directing such industries had no warning of the application. Chairman W. H. Moore assured Mr. Brisail that there would be a second hearing.

Submitted To Privy Council

Saskatchewan and Alberta Wish To Appeal Ruling On Education Act

OTTAWA.—The judicial committee of the Privy Council will be asked to sit after next month in London to hear the appeal from the judgments of the Supreme Court of Canada upholding the constitutionality of the Alberta and, incidentally, the Saskatchewan Autonomy Act in respect to education.

George L. Jones, K.C., for the government, has been called to present the petition and will shortly leave for London. The Act sets forth in view of the importance of the question a permanent committee of the Privy Council to sit there.

The case, arising in connection with the return of Alberta's resources, is unique in that the government is really appealing the decision in its favor for the purpose, as indicated, of securing a judicial determination that will be final and absolute.

U.S. Giant Dirigible Will Visit Ottawa

British and American Officers To Make Trip in "Los Angeles."

OTTAWA.—The giant United States dirigible the "Los Angeles," with Sir Philip Sassoon, British Undersecretary of State for War, and accompanied by a number of British and American officers here, is to visit the capital on October 23, according to announcement from the Department of National Defence. The British contingent, from London, will be in Ottawa on October 25, arriving over Ottawa between 3 and 4 p.m. of the same day. A stop or short an hour is to be made.

First Ships Practicable

Winnipeg.—Construction of a fleet of fast passenger ships, twice the size of a destroyer and capable of making the trans-Atlantic trip to Europe in ten days, is to be proceeded with in the shipyards of Chatham, Ontario, of the Shipbuilding Board, who has witnessed tests of a 20-foot ship model at Washington may 23. A speed of 30 knots was indicated by the tests.

Return To Face Trial

Winnipeg.—Barrie Nelson, alleged stranger, now in jail here charged with the murder of two Winnipeg women, will be tried before Mr. Justice Dyer at the assizes in October. Mr. Howard, J. B. Graham, K.C., crown prosecutor, will represent the crown, while J. H. Stitt will act on behalf of the prisoner.

British Prospects Bright

NEW YORK.—"Ecaladon has turned the corner" and the outlook for the future is bright, declares H. W. Ichman, Steed, editor of Review of Reviews, here.

Ireland has a campaign for peace

Police Forces To Co-operate

Dominion Government Will Not Consider Withdrawal of R.C.M.P.

OTTAWA.—While the Dominion government for the moment can consider the withdrawal of the Royal Canadian Mounted Police as agents of the Federal authority from the provinces of Saskatchewan as suggested in a recent speech by Mr. Dechamne, some arrangement may be arrived at between provincial and federal authorities whereby the R.C.M.P. and the Saskatchewan Provincial Police will co-operate in the enforcement of provincial statutes.

The following statement of Hon. Ernest Lapointe, Minister of Justice, regarding the police situation in the prairie provinces. Hon. Mr. Lapointe stated that the local dispatch companies were to him the best guarantee that the police force was under way last year between Saskatchewan authorities and himself as a result of the feeling at Regina that there was overlapping in protection.

"There has been no trouble. It is partly a matter of economy," the minister said. "Saskatchewan authorities were to avoid overlapping, and think that provincial matters affecting the police force of the province could be better handled by one force or by closer co-operation between the existing authorities.

"The government has no idea of what would be the cost of having any part of the R.C.M.P. anywhere in the prairie provinces. He is able to come to some arrangement with the government from the West at our meeting in the near future to ease the situation there."

Alberta Coal Strike

Minister Of Labor Offers His Services To Help End Dispute

OTTAWA.—The Minister of Labour, Mr. John Diefenbaker, offered to the parties of the Drumheller coal strike by Hon. Peter Heenan, Minister of Labour.

"As the law now stands," said the minister, "I am not in a position to pass legislation to enable the federal department to administer the Industrial Disputes Act in that province. But Alberta has passed an Industrial Disputes Act of its own, and I am sure it will lessens the particular trouble."

"However, if the parties to the dispute or the provincial government of Alberta desire any assistance from the federal department to end the strike, I will be happy to come to some arrangement with the government from the West at our meeting in the near future to ease the situation there."

Alberta Coal Strike

Minister Of Labor Offers His Services To Help End Dispute

OTTAWA.—The Minister of Labour, Mr. John Diefenbaker, offered to the parties of the Drumheller coal strike by Hon. Peter Heenan, Minister of Labour.

"As the law now stands," said the minister, "I am not in a position to pass legislation to enable the federal department to administer the Industrial Disputes Act in that province. But Alberta has passed an Industrial Disputes Act of its own, and I am sure it will lessens the particular trouble."

Mr. Heenan pointed out that six of the nine provinces had passed the Industrial Disputes Act, and that the federal Industrial Disputes Act in Ontario, Quebec and Alberta are the three which have not adopted the necessary legislation.

Deny Charges Against Moscow Millionaires

Were Not Associated With Mission Says Former British Secretary

OTTAWA.—Sir Edward Carson, former secretary of the British Mission in Moscow, as he told the court here yesterday, denied that Kyril Proter and Vladimiro Prove, two former Moscow millionaires alleged to have supplied him with Red arms and may have sold him to the Germans, were ever members of the Canadian delegation to the Soviet Union.

LOCALS

A. F. McKibbin, of Carbon, visited Champion this week, taking Mrs. McKibbin and baby back with him.

Wanted — A second hand trunk, must have lock on it. Apply to Gordon McLean, Secy High School Lit.

Katherine Murphy celebrated her sixth birthday on Thursday by entertaining some twelve of her school friends after school. All present had a real enjoyable time.

A large number of O. E. S. members from Barons, Carmangay, Vulcan, Lethbridge and Granum attended the Champion Chapter on Wednesday evening on the occasion of the visit of the Worthy Grand Matron.

The Ladies' Aid Society of Champion United Church, will hold its annual Bazaar in W. C. Hoskins' store on Saturday, November 26th, afternoon and evening. Remember the date. Its bigger and better than ever before.

Champion Ladies' Aid will hold their annual Chicken Pie Thanksgiving Supper on Monday evening, November 7th, in McCullough's hall. Supper will be served from 6 to 8 p.m., and a programme will follow. Admission 50c, children 25c.

While there has been a steady flow of grain during the week the extraordinary rush of the first few days has not been repeated owing to the absence of room in the elevators. Trucks have been much less in evidence lately.

H. E. Gill visited Mrs. Gill in Calgary at the week end, where she has been taking treatment for rheumatism for some time. Mrs. Gill will return home shortly, having benefitted largely from her stay in Calgary. Mr. Gill was accompanied on the trip by the Misses Flora and Eva Gill and Miss Thelma Williamson.

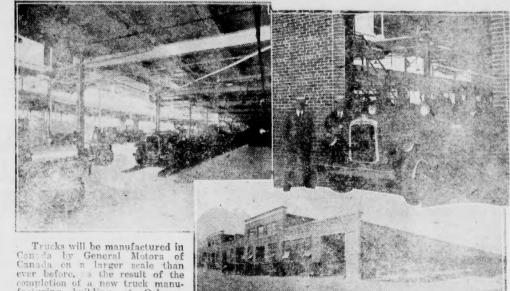

The latest crop report issued by the Department of Agriculture estimated 50 per cent of the threshing done in the Peace River country at the end of last week and from 35 to 40 per cent in the rest of the province. Three to four weeks of favorable weather is considered necessary to complete the threshing. There are 6,500 threshing machines in use in the province.

A ghost party, in honor of A. S. Hunt, who is leaving for Seattle shortly to study music, was held on Monday evening. Mesdames Campbell and Orr being hostesses for the occasion. The ghost of the evening was escorted from the church to Campbell's hall by a ghost, and a ghostly company made merry there, later adjourning to G. A. Orr's residence, where delicious refreshments were served to

Ghosts of the Past

"The good old days of steering 'sliders', oil lamps and engines under the seat were brought back again the other day when Toronto held an old car parade. Hundreds of old-timers turned out to see the veterans rattle past at a shaky four miles an hour, and some narrowly escaped injury when one of the old-timers spit and bucked at a corner. The 1902 Oldsmobile shown in the picture led the parade, and the 1903 Oldsmobile, which was the first to be built in Detroit, Ontario, and which is still in use without a falter, is visible one of the first McLaughlins made in Canada, a two-cylinder 1907 model."

Trucks will be manufactured in Canada by General Motors of Canada on a larger scale than ever before, the result of the completion of a new manufacturing building at Oshawa. This building is but one unit in a \$2,000,000 program of expansion under way in Canada's motor city where General Motors of Canada are erecting a huge stamping mill, a fireproof office building, a new paint shop, and engineering additions to the machine shops, body building, radiator and assembly plants. The program, when finished, will be 100,000,000 square feet of floor space, equivalent to 100 football fields. The exterior and interior of the new truck building.

the large number of guests. It is hardly necessary to say the evening was a very pleasant one, naturally tinged with regret that Mr. Hunt's departure was so close at hand.

A large attendance greeted Mrs. Jessie G. Carmichael, of Strome, Worthy Grand Matron of the O. E. S. on Wednesday evening, the occasion being her official visit to Champion Chapter. Numerous visitors from other Chapters were present with the result the largest meeting ever held by the local chapter took place. A splendid spirit animated the proceedings throughout. During the meeting the W. G. M. delivered a splendid address which was greatly appreciated. She was also made the recipient of beautiful book ends as a souvenir of the occasion. Mrs. C. McLean, Mrs. J.

Hagerman and Mrs. D. Clements rendered solos. Worthy Patron J. O. Bell acted as chairman of the social time which was so close at hand.

A "Want Ad"
will do it.

**Everyone of them has a
real message for you.**

The "Want" column, too, is well worth looking over regularly. There is always something lost, found or for sale that will interest you.

And when answering advertisers, don't forget to say you saw it in

THE CHRONICLE

*All tell you why I'm going to
buy a Westinghouse—*

These new Westinghouse Sets are great! I was over at Bill's last night to hear the radio he's been talking so much about. Oh boy, is some set. There's as much difference between it and an ordinary set as there is between a Ford and a Lincoln.

When you think it over, it's just what you'd expect from Westinghouse. They were the pointers of both Alternating Current and Radio, so you can't expect them to build the most compact models operating on the lightest circuit.

And another thing, Westinghouse have selected the most competent radio merchants in town as Westinghouse Dealers.

*We will gladly demonstrate the 1928 Westinghouse Radio and explain the many improvements that make *you* better.*

J. M. MOFFATT, Dealer, Champion, Alta.
